# RED CUBIC

## ***What is RED CUBIC?***

*Red Cubic is a decentralized crypto ecosystem.*

*Red Cubic provides the foundational building layers for a new digital economy with following products: DeFi, LaunchPad, GameFi, NFT, Chain and connecting crypto to the real world.*

*Red Cubic is on a mission to build a connected world where every-day people will own their data, devices, and identity. Harnessing the power of blockchain, IoT will unlock the potential of smart devices/ data and empower a new generation of real world Dapps and digital assets.*
